SUMMARY

As a recent graduate in computer science, I have gained solid knowledge in Java. Seeking a challenging role as a Java developer to grow professionally and make a significant contribution to the team's success. Looking to start the career as an entry-level software engineer with a reputed firm driven by technology.

EDUCATION

- **BSc. Computer Science (7.14 CGPA)** From Krishna University   **2022**
- **Intermediate (60%)** from Andhra Pradesh state board   **2017**
- **SSC (7.3 GPA)** from Andhra Pradesh state board **2015**

PROFESSIONAL SKILLS

- Proficiency in Core Java programming concepts, including OOPS.
- Knowledge of Java frameworks such as Spring, Springboot, Hibernate.
- Understanding of SQL and relational databases such as MySQL and Oracle, as well as Knowledge in version control tools like Git and GitHub.
- Familiarity with front-end development tools such as HTML, CSS, and JavaScript.
- Familiarity with software testing concepts, including Manual testing and Automation with tools like Selenium.
- Understanding of software development life cycle (SDLC) and software testing life cycle (STLC).
- Knowledge of API and RESTful web APIs.
- Understanding of software development methodologies such as Agile.

PROJECT EXPERIENCE

Project Title: My Online Store (E-commerce)
Duration: 1 Month (March 2023 - April 2023)
Technologies Used:

- **Backend**: Java 8, Spring Boot, MySQL, JSON web token (JWT)
- **Frontend**: Angular 10, Bootstrap, npm
- **Development Tools**: IntelliJ, VS Code, Postman

Skills Demonstrated:

- Experience with RESTful API development and integration with frontend.
- Knowledge of database management using MySQL.
- Proficiency in implementing security measures such as JWT authentication.

Description:
- Developed a full-stack e-commerce web application using Java 8, Spring Boot, Angular 10, and Bootstrap.
- Implemented JWT authentication for secure user login and MySQL for database management.
- Created RESTful APIs for product catalog, shopping cart, and order management functionalities and for Payment using Razor Pay getaway.
- Designed the frontend layout and user interface using Angular 10 and Bootstrap, and integrated it with the backend using RESTful APIs.

Second Project

Project Title: My Diary
Duration: November 2022 – December 2022
Technologies Used:
- Java 17, Spring MVC, Hibernate, Java server pages, MySQL and Eclipse IDE.

Achievements:
- Successfully developed a fully functional application that met the requirements.
- Improved coding skills and understanding of Java programming and Spring MVC.

Description:
- Developed an My Diary application using Java and Spring MVC. Implemented functionality for user authentication, write note on the day, and view and modify the data. Used Hibernate for database management and java server pages for templating.
- https://github.com/ChanduRaaparthi21/mydiary.git

KEY SKILLS
- Quickly adapt for any situation
- Good communication skills
- Problem solving
- Logical Thinking and Analytical Thinking

INTERESTS
- Surfing web
- Listening music
- Playing video games

PERSONAL DETAILS

Full Name	Chandu Raparthi
Gender	Male
Date of Birth	22/12/1999
Marital Status	Unmarried
Nationality	Indian
